Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

epidermal growth factor receptor precursor - chicken
N;Contains: protein-tyrosine Kinase (EC 2.7.1.112) erbB
N;Contains: protein-tyrosine Kinase (EC 2.7.1.112) erbB
C;Species: Galluw galluw (chicken)
C;Species: 28-Feb-1986 #sequence_revision 05-May-1995 #text_change 04-Feb-2000
C;Accession: A27720; A00643

protein-tyrosine kinase (EC 2.7.1.112) mrk-Y precursor - southern platyfish

Nylternate names: epidermal growth factor receptor homolog; kinase-related transforming
C;Species: Xiphophorus maculatus (southern platyfish)
C;Date: 10-Sep-1999 #sequence\_revision 10-Sep-1999 #text\_change 18-Feb-2000
C;Accession: 806142; 813809

C;Function:
C;Function:
A;Description: catalyzes the phosphorylation of a peptidyl tyrosine residue by ATP
C;Superfamily: epidermal growth factor receptor; protein kinase homology
C;Keywords: ATP; autophosphorylation; duplication; glycoprotein; phosphorotein, phosphorotein, phosphorotein, protein-tyrosine kinase erbB2 #status predicted *RTP-
C;Superfamily: epidermal growth factor accellular domain repeat *EB1->
F;22-1255/Product: protein-tyrosine kinase erbB2 #status predicted *RTP->
F;22-1255/Product: protein-tyrosine kinase erbB2 #status predicted *RTP->
F;22-653/Domain: EGF receptor extracellular domain repeat *EB2->
F;22-653/Domain: EGF receptor extracellular domain repeat *EB2->
F;30-605/Domain: EGF receptor extracellular domain repeat *EB2->
F;30-605/Domain: intracellular #status predicted *TWP->
F;30-605/Domain: protein kinase ATP-binding motif
F;68-124,187,359,505,501,629/Binding site: carbohydrate (ABT)
F;36-734/Region: protein kinase ATP-binding motif
F;66-124-134/Region: protein kinase ATP-binding motif
F;66-124-134/Region: protein kinase ATP-binding site: carbohydrate (ABT)
F;30-721,122,1248/Binding site: phosphate (Tyr) (covalent) (by protein kinase C) #status predicted
F;753/Active site: Lys #status predicted
F;753/Active site: Lys #status predicted
F;753/Active site: Lys #status predicted
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               300
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    360

epidermal growth factor receptor precursor - chicken

epidermal growth factor receptor precursor - chicken

N;Contains: protein-tyrosine kinase (EC 2.7.1.112) erbB

C;Species: Gallus gallus (chicken)

C;Species: 28-Feb-1986 #sequence_revision 05-May-1995 #text_change 04-Feb-2000

C;Accession: A27720; A00643

C;Accession: A27720; A00643

C;Accession: A27720; A00643

Mol. Cell. Biol. 8, 1970-1978, 1988

A;Title: Chicken epidermal growth factor (EGF) receptor: cDNA cloning, expression in mou A;Reference number: A27720; MUID:88261272; PMID:3260329
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  1197
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             AEEYLVPQQGFFCPDPAPGAGGMVHHRHRSSSTRSGGGDLTLGLEPSEEAPRSPLAPSE 1079

Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
